*******:**

This is a true and complete dispersion of the entire Claymore Farms herd. It is a decision we have been faced with making for some time but finally have had to make.

Four years ago we held a near dispersion sale because we felt it necessary to lighten our work load. However, at the time we did retain some of the older cows in the herd and another dozen that were owned by members of the family.

These have multiplied fast and we again find ourselves with a larger than average sized herd. In the meantime, we have nearly doubled the size of our farming operation. With this we have been partially able to solve our labor problems with mechanization but with a purebred cow herd this is not possible. Thus, considering the large farming operation involved, it seems the only logical decision.

Regardless of the reasons, we sincerely regret to part with our Shorthorns. For over forty years we have bred, owned and worked with them and they have afforded us much from the days when we exhibited the herd over most of the United States with marked success to days such as the last several years when we have maintained them as a practical producing herd by selling the bull calves mostly as club calves and retaining all the best heifer calves.

Therefore, we are sure that the nucleus of a top breeding herd still rests in this herd and they can do much for their future owners. We believe that a good look at these cattle on sale day will surprise and convince you.

We are pleased to have our good friend, Leonard Adams, join us with a guest consignment of cattle we can recommend in this sale.

We will be more than pleased to have you with us on November 21.

FLOYD CLAUSEN

ARLAN CLAUSEN

Homer Duea, Herdsman

Complete dispersion of the Claymore Shorthorn herd brings a sense of personal loss and regret to me. Floyd and Arlan Clausen have been close friends since our earliest days in the Shorthorn business over forty years ago. Further, in all that time I have always known the herd well, having watched it develop and grow from a select small herd to one of the all time great show herds in the country.

I realize that times and conditions change and that as time goes on changes must be made in order to adapt to conditions. However, the Shorthorn business will not seem the same without a Claymore herd.

Never the less this is a good, real producing group of Shorthorn cattle that are adaptable to times and conditions because the Clausens have always been real cattlemen first, last and always.

I know that many will be pleasantly surprised when they see this uniform group of females and the many big husky calves at foot, both bulls and heifers. Also some top steer calves.

In addition to the Claymore Dispersion, Leonard Adams makes a guest consignment of twelve well bred females with eight calves at foot from his Len Ru Farm.

It is my sincere hope that everyone will make it a point to attend this sale on November 21 and help themselves.

ALBERT J. HAMANN,
SALE MANAGER.

His dam is a granddaughter of two International Reserve Champions. This bull is the sire of 6 yearling heifers, 21 calves at foot and service sire of 24 females in the sale. He is sure, sound and strong and sells fully guaranteed.

A GOOD OPPORTUNITY TO BUY CLUB CALVES

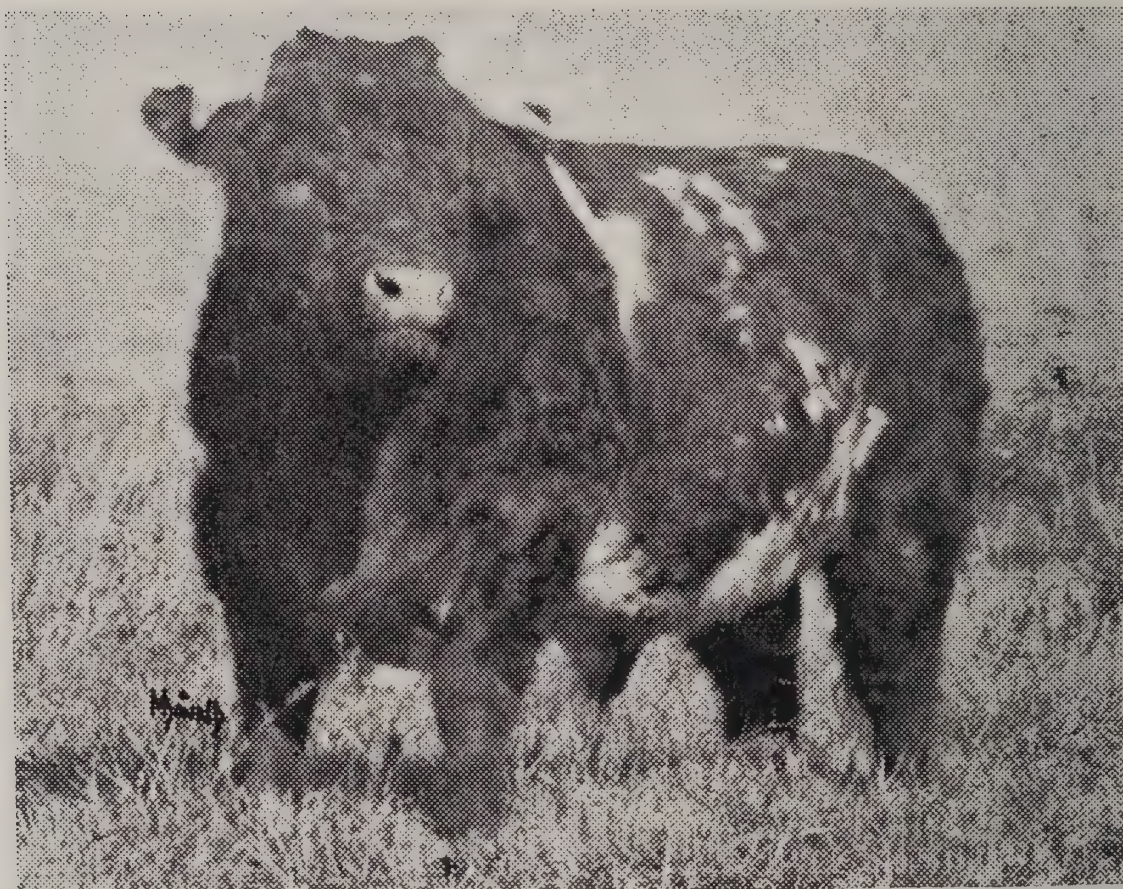

The large number of good aged, big, husky steer and heifer calves at foot of their dams are ideal for 4-H and FFA projects. In the past, juniors have had good success with their steers and heifers from Claymore Farms and Len Ru Farm.
The plan is to offer an additional group of 14 real top steer calves with ruggedness and size.

Standard Guarantee

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
